Venkat Tikkireddi

Keen Strategist with proven success in Product Delivery ~ IT Strategy Roadmap Planning ~ Project / Program Management ~ Stakeholder Relations

Hyderabad, Telangana, India

Summary

I am a qualified professional with 16+ years of rich IT experience in Design & Full Stack Development & Maintenance of high-quality & defect-free software applications to effectively meet global market requirements, leading delivery of high-impact Process Automation / Digitisation projects. Throughout my career, I have acquired proven success in defining software roadmap, solution design and architecture, technology stack / design thinking, aligning cutting-edge technologies with changing business requirements, supporting critical business process reengineering/ digitisation initiatives, transition from legacy systems to new IT solution offerings- Microservice, Java, J2EE, Enterprise-wide Cloud Adoptions.

A professional with deep rooted experience in mapping business issues / transformation requirements and developing End-to-End Solution Designs for the impacted areas entailing functional design for impacted areas and non-functional details, risks, assumptions, issues, dependencies and decisions management. I enjoy working in teams, resulting in enhanced systems for higher performance of the team. Some of my positives which I can talk about are ability to multitask, good understanding of operational & systemic aspects for providing complete solutions, seeking & harnessing new opportunities & creating win-wins.

I am inspired most when given the opportunity to lead and work with limited resources, collaborating on the management of challenging tasks, the delivery of objectives and the achievement of deadlines while enjoying the sense of mutual achievement. If you wish to know more about my experience or can think of potential business collaboration then please mail me at venkat.tikkireddi@gmail.com

Experience

EPAM Systems

Technical Delivery Manager

December 2021 - Present (3 years 9 months)

Hyderabad, Telangana, India

ADP

8 years 7 months

Software Development Manager

September 2018 - Present (7 years)

Hyderabad Area, India

I leveraged cross functional knowledge and versatile record in facilitating effective coordination with stakeholders (Internal and External) like Product Management, UX Team, DevOps, SRE, Performance Engineering, Leadership Team, Field Team, Support Team for smooth delivery execution

I have consistently proved my mettle by collaborating with field team to align on future upgradation requirements and to understand any feedback or concerns, to avoid rework later. Involved in the UX discussions, to make sure user experience aligned according to user base. Avoided late feedback by connecting with required stakeholders- Product Management, UX, Leadership, Field Team upfront.

A few key highlights were:

- ✓# Pivotal in avoiding performance issues in production by proactively checking in the lower/dev environments for any possible memory leakages using the tools like XRebel and Splunk verification
- ✓# Led successful migration of existing Microservices to Public Cloud to cater to Cloud user base
- ✓# Identified the impacted queries using SQL Parser (This checks ANSI SQL compatibility); supported Tuning of SQL Queries to ANSI standards. Updated the code to integrate the revised queries.
- ✓# Worked with DB Team to get the stored procs corrected to make them Postgres/ANSI compatible
- ✓# Played a key role in Functional Certification to ensure functionality is impacted, achieving reduction in license costs
- ✓# Instrumental in API Development, API Certification using API Automation Tool, availability of the feature to more partners
- ✓# Worked closely with Product Management team to identify scope for new feature set, enhance application to increase user experience.

✓# Analysed product feedback, stakeholder expectations, and compliance requirements, deep dived with UX teams to finalize the scope /user experience. Achieved smooth delivery of the new feature set

Senior Consultant

February 2017 - August 2018 (1 year 7 months)

Hyderabad, Telangana, India

ValueLabs

1 year 8 months

Project Lead

July 2015 - February 2017 (1 year 8 months)

Hyderabad, Telangana, India

I displayed my keen acumen in managing Program/Projects Deliverables Building PoCs, defining Business Case, Benefits, Transformation Roadmap and ROI. Responsibly facilitated Business Analysis, As-Is to To-Be /Gap Analysis, process flow documentation & requirement traceability matrix

Some significant accomplishments were:

- ✓# Acquired understanding of feasibility of migration of the old system into the new tech stack
- ✓# Conducted continuous review of existing processes (Work and People Engagement) and driving process improvement as required
- ✓# Involved in reporting on Project Status to Client & all Stakeholders through Dashboards/ MIS Reports/ Project Walkthroughs

Technical Team Lead

July 2015 - March 2016 (9 months)

Accenture

8 years 1 month

Software Engineering Team Lead

July 2007 - July 2015 (8 years 1 month)

I drove efforts for contributing as a team Lead in rendering effective solutions to any technical or business-related problems, debugging issues and identifying root cause. I was accountable for steering end-to-end Program/ Projects Deliverables Building PoCs, defining Business Case, Benefits, Transformation Roadmap and ROI.

A few highlights were:

- ✓# Facilitated Business Analysis, As-Is to To-Be /Gap Analysis, process flow documentation & requirement traceability matrix
- ✓# Developed solution framework & implementation plan for industry specific projects using technical frameworks & innovations
- ✓# Worked as a part of COE, addressed problematic areas of client for high-client satisfaction levels. Identified application enhancements which will allow Accenture to propose new projects, leading to increase in revenue.
- ✓# Pivotal in building Tool Integration Automation which helped the internal PMO team in generating various reports which reduced huge amount of manual efforts

Senior Software Engineer

July 2009 - March 2011 (1 year 9 months)

Software Engineer

July 2007 - July 2009 (2 years 1 month)

Bangalore

ExtremelT Solutions Private Limited

Senior Analyst

January 2005 - July 2007 (2 years 7 months)

Visakhapatnam

Education

GVP College (IGNOU), Visakhapatnam, AP
